

PACS Workstation Mounting Solutions

In addition to our extensive line of diagnostic and surgical LCD monitors, Double Black Imaging offers mounting solutions to complement our PACS display solutions. Whether your needs include a single or multi-monitor configuration, Double Black Imaging finds the right solution to maximize your productivity. These solutions include high quality products with extensive features and benefits, allowing users an unparalleled range of motion when working within any type of surroundings.

Our team of experts will conduct onsite audits to determine the best options for your facility. Drawing on their extensive experience, they thoroughly evaluate your:

- Hardware needs
- Compatibility issues
- Networking infrastructure
- Power ability
- Space limitations
- Specialized requirements

After our team completes its analysis, Double Black Imaging provides you with a complete solution recommendation, including which products to use, where to place them, how they should be mounted/installed, as well as detailed cost estimates.

PACS Workstation Mounting Solutions

Wall Mounted Options

PACS Workstation Mounting Solutions

Cart Options

With over 20 years in the Healthcare industry, Double Black Imaging and Image Systems understands the many requirements of hospitals and other healthcare facilities.

Double Black Imaging offers cart/monitor solutions that allow you to strategically bring your mobile LCD solution and computer wherever they are needed in any type of environment. Our cart options accommodate LCDs with up to a 46" sized display, with tilt from -5° to $+15^{\circ}$. All cart/monitor solutions are height adjustable and internal wire management is enclosed by easy-to-remove access panels. In addition, we have customized our solutions to include a retractable power cord and 4" rubber casters for enhanced maneuverability.

Features and Benefits Include:

- Fits flat screens 23" – 46" with mounting pattern up to 18"W x 12.75"H
- Monitor mount tilts from -5° to $+15^{\circ}$.
- Mobile and stable
- All components are individually adjustable in increments of 1"
- Retractable keyboard tray
- Built-in cable management with removable access panel
- Available in black
- Four-inch casters (the front two are locking)
- Writing tablet on the pole carts
