

Phoenix Advanced

Let the Phoenix Advanced raise your reading room to new ergonomic levels. The newest line electronically goes from 24.9" to 50.6". Choose from an electronic monitor mount or manual monitor mount. Both options move monitors forward and backward in unison and allow the monitors to move up and down independently from the table.

The Phoenix includes cable management, monitor mount, personal air circulation, power bar under the surface of the table, and wireless charging for the user.

Features		DBIPHA272/DBIPHA260
Surface Size		72"w or 60"w (more sizes available upon request)
Height Adjustability		26.9" to 47"h

Phoenix Advanced

1

Phoenix Monitor Mount

Each user needs to be able to easily adjust the monitor so that the top of the screen is at or slightly below eye level.

When in standard viewing mode, the monitor should be at an arm's length distance. In reading rooms, the monitors need to have the ability to move forward and backward.

The newest monitor mount on the Phoenix Advanced allows users to easily adjust the monitors for standard viewing or closer viewing for each read.

Choose between manual or electric monitor mount.

3

Power

The Phoenix Advanced features a 12-outlet power bar in the cable management box, wireless charging, and 2 USB and A/C outlets on the surface of the desk with a sliding cover to protect from spills.

2

Task Lighting

The task lighting on the Phoenix Advanced illuminates the workspace without changing the lighting for the entire room.

Phoenix Advanced

4

Surface and Base Color Options:

Desk depicted in Skyline Walnut top and black base.

5

Cable Management

Keep wires tidy with cable management box and cable ladder. Both allow IT teams quick access for any changes that need to happen immediately or down the road. 12-Outlet Power bar included in cable box for additional power for equipment on table.

7

Single or Dual Surface Available

Select a dual or single surface. The Dual Surface offers more ergonomic adjustability. The manual mechanism raises and lowers the front keyboard surface. Also allows the surface to positive or negative tilt.

Dual surface depicted above, single surface below:

6

CPU holder (Add-On)

Adjustable CPU holder included. Supports CPU's 3.5" to 9.3" width and up to 22.5" height. Additional CPU holder available upon request

7 years limited parts warranty. All metal frame, tubes and welded metal components are warranted for a period of 7 years from the date of purchase. Electrical components and wires are warranted for a period of 5 years from the date of purchase. The surface is a 10 year warranty against defects. Normal wear and tear not warranted.
