Bringing the Reading Room Home

As more facilities and Radiologists incorporate the ability to read from home, ergonomic considerations should not be overlooked. Optimizing your home reading office reduces the likelihood of back pain and spinal health issues. It also improves metabolic rates and reduces respiratory dysfunction caused by a sedentary office lifestyle. A home reading space designed with state-of-the-art ergonomics ensures maximum safety and comfort while also improving productivity and the radiologist well-being.

The Phoenix Home Station includes:

- Electronic sit to stand capability, 4 presets with soft collision safety stop sensors
- Desktop power with USB ports
- Dimmable Gooseneck task lighting to reduce eye strain
- Sturdy CPU Rack that moves with the workstation, positions adjacent to cable management compartment for ease of set up and eliminates cable disconnection issues
- Sleek, Integrated Wire management
- Optional Display, CPU and/or seating bundles

Phoenix Ergonomic workstations

Double Black Imaging's Phoenix workstations feature solutions to take the Radiologist from the home office to the reading room. Manufactured in the USA with German made actuators, the Phoenix line-up is purposefully built for Radiology. Each Phoenix model is designed with high-grade aluminum legs that will not rust or corrode. Additional cross bracing prevents buckling over time as seen with other brands.
About Double Black Imaging

Our team has a renowned history of providing the industry's finest customer service, continually acknowledged by thousands of users and IT professionals who put their trust in us every day.

We are dedicated to developing innovative imaging solutions that greatly improve image quality and stability. Making imaging more efficient and reducing costs are the cornerstones of our mission.

Features	Phoenix Home
Surface Size (WxD)	60" x 30"
Height Adjustability	27" to 47"
Weight Capacity	450lbs
Programmable Presets	4 Programmable Presets
Surface Power - Flush Mount	Charging Dock with (1) USB-A, (1) USB-C, and (1) AC Port
Surface Task Lighting	LED Task Dimmable Task Light
CPU Holder	Under Desk CPU Holder, adjusts from 5 1/4" -8" Wide and 9" to 18-3/4" High, Supports up to 40 lbs.
Cable Management	Under Desk Cable Closet, Wire Management box for 60" Desk. Includes (2) 6 outlet Power strips, 110-125V AC, 50-60 Hz.
Warranty	10 year warranty on base, 5 year warranty on work surface.

Featured Add-Ons

Double Black Imaging offers fully bundled solutions to pair with our Phoenix line of Radiology Workstations. All diagnostic displays from Double Black Imaging are equipped with built in front sensors for hands-free automatic DICOM 3.14 calibration, backlight sensors, and ambient light sensors to maintain stability and accuracy over time. The CFS Calibration Software Suite for remote calibration, conformance, report generation, and non-conformance alerts via the web, is included with all DBI diagnostic displays.

Included with DBI's Calibration suite is the CFS Productivity Toolkit. This software consists of several utilities designed to improve user workflow, enhance visual clarity, and reduce distraction, ultimately diminishing visual strain. The CFS toolkit increases cursor movement efficiency while minimizing hand strain, fatigue, and frustration.

Our Teleradiolgy bundles are preconfigured with DBI displays and CPUs, developed to deliver high performance but take up less space and look sleek. Our Phoenix Home Bundles include special pricing for displays, CPUs, the Phoenix Home Workstation, and seating to fit a wide range of budgets.

- Wide range of resolutions for PACS, Clinical, and Mammo/Tomo use.

- Superior image quality to other medical displays on the market.

- Automatic Calibration for DICOM Compliance

- Email Alerting and Reporting for Joint Commission and MQSA built in.

- Pre-Configured systems with displays, CPUs, and Ergonomic workstation options.

- CFS Enterprise Suite hosted within enterprise walls. Keep your information and enterprise safe. No 3rd party or foreign access required, eliminating potential data breaches caused by confidential information being sent through foreign relay servers.

Take Advantage of our direct relationships for workstations.
DBI will preconfigure all displays, graphic controllers and calibration software prior to shipment.

Ergonomic Seating
Reduces back pain and improves productivity by promoting proper alignment.
