

## EZ-Track Monitor System

The **EZ-Track** is an electric monitor lift that provides quick height and depth adjustment. The lifting column features a 150 lb. lifting capacity making it easily support up to 8 monitors.

Optional height presets mean users can program custom height settings, making it ideal for multi-user workstations.

The EZ-Track system is a great ergonomic monitor arm solution for healthcare Radiology (PACS) patient monitoring, security stations, stock trading desks, and anywhere multi-monitor applications are used.

### **Monitor Mounting Features**

- Monitor Mounting Bracket, with Quick-Connect, contains 75mm and 100mm hole patterns to comply with VESA standards
- Customizable utilizing arm monitor extensions.

### **Lifting Column Features**
